TRACKING CATTLE
SHOULDN'T BE A DESK JOB.

Animal Management Studio's New Movements App

Update animal movements from anywhere.

# Conveniently track cattle shipping, receiving and location changes.

The new Movements App from Turnkey Computer Systems extends Animal Management Studio's (AMS) functionality beyond your desktop and brings it to your phone or tablet. It lets you track animal movements from the front seat of your pickup or pen side.

Yard hands can make changes pen side and movements are logged instantly, making your operation more efficient and data more accurate. Updates are available quickly so all users have the most recent information possible.

Movements is available on both Android and iOS platforms. It can run live with a Wi-Fi or cellular connection or disconnected with data saved and then transferred to the platform when a signal is available.

Movements App Features:
- View and update pen and lot information.
- Track multiple shipments out of or into the yard.
- Access lot data including total cattle weight and average weight.
- Experience secure, cloud-based security.
- Enjoy an easy-to-use system with training features for quick learning.
